In short words

EOS Solutions is one of Microsoft's leading business application partners (Dynamics 365). Gold partner Microsoft since 2000, EOS successfully implements ERP and CRM solutions based on Dynamics 365. EOS Solutions is part of KUMAVISION Group. Together, they represent one of the largest worldwide Microsoft Dynamics 365 Business Central partners worldwide, with over 2,500 customers, 75,000 users, 1000 employees and 29 offices in Italy, Germany, Austria, Switzerland and US.

About us

EOS Solutions is a group operating in the Information Technology sector with more than 450 collaborators spread over 13 offices. EOS Solutions, leading Microsoft partner in the SMB segment, focuses its expertise on the Microsoft Dynamics 365 business solutions suite, integrating it with the entire stack of Microsoft cloud services for business intelligence, AI, collaboration and productivity.

EOS Solutions is participated by the German group KUMAVISION, leading partner for Dynamics 365 in Germany; the extended group is one of the largest Microsoft Dynamics 365 partners worldwide, with over 2,500 customers, 75,000 users, 1000 collaborators and 29 offices spread across Italy, Germany, Austria, Switzerland and US.

EOS Solutions is a member of the Microsoft Business Applications Inner Circle 2023-2024, the group of the world's top Dynamics partners that includes less than 1 percent of the entire channel. EOS Solutions is also the world's first publisher of apps for Dynamics 365 Business Central in AppSource, Microsoft's marketplace dedicated to its partner solutions.

Microsoft Partner Pledge

Digital skills

Diversity

Sustainability

**Responsible
and Ethical AI**

A partnership between digital leaders, the promise of a forward-looking digital transformation with a human soul.

Four pillars that will guide the actions of Microsoft Partners in the years to come. A call to commitment and responsibility that EOS Solutions fully endorse, signing the program and committing to implement it, point by point.

EOS Green

We believe in the contribution that technology can make to an effective ecological transition, especially in adopting appropriate solutions and choices.

In addition to promoting a green philosophy through **virtuous business practices** (100% electricity from renewable sources in all locations, reducing plastic consumption, setting up charging stations, installing LED lamps), we develop software solutions that can help companies make increasingly sustainable choices.

In 2021 we joined the **Microsoft Partner Pledge**: a pact that binds us to pursue environmental sustainability in every activity.

That's why we collaborate with **Treedom**, planting trees from a distance to help **reduce CO2 in the atmosphere**. Collaboration concretized in the **EOS Future Forest project**: the first 200 trees planted to celebrate our first 20 years. The next ones? Treedom will plant a tree for each new colleague and each new customer.

That's why we've developed the **Carbon Footprint Calculator** app, that allows businesses to monitor the CO2 emissions of each activity. The free app for Microsoft Teams allows you to identify carbon hotspots in your company and reduce them.

For our part, we power our offices only with energy produced from renewable sources and we have structured our car fleet with exclusively hybrid or electric vehicles. But above all, **we combine digital commitment and sustainability**.

Social responsibility & sponsorships

EOS Group believes in sports sponsorships that enrich the corporate world with the values of sport.

Values and passion that drive team managers, as well as young players, are the same that EOS Solutions applies every day in the development and implementation of projects for its customers. As in sports, in everyday business activities factors as teamwork, respect, overcoming difficulties and achieving big goals are critical to the success of the whole team.

This is why EOS Solutions has signed a sponsorship agreements with Rugby Bologna, active since 1928, and the Baseball Club Pool 77 team of Bolzano. At the end of 2020, an agreement was signed for the sponsorship of STS VOLLEY (Sport Team Sudtirolo Volley), a volleyball sports association founded in Bolzano in 2010.
