The Bulk Email to Customers and Vendors app allows you to send **bulk e-mail to Customers**.

For example, to send an e-mail to several customers, we open the Customer List and select the recipients.

Clicking on Actions->Email->Send

The System will open an e-mail with the fields Sender and Recipient pre-filled according to the Email field in the Customer card. If the Email field is empty, the system will not add the recipient to the email.

You can then write a text and / or attach documents and then send.
